EXPERIENCE

Product Engineer

Apr '24 — Present

Observance Solutions

Lucknow, India

Driving frontend development at RagaAI, a cutting-edge AI startup, via an engineering partnership.

- Architected and deployed **AI-integrated UIs** including **LLM playgrounds** and **multi-agent trace views** using **React**, **TypeScript**, **Plotly**, **Canvas**, and **Chart.js**, leading to a 60% boost in user interaction for model debugging tools.
- Delivered 12+ core features, including **data-rich dashboards**, for **LLM** and **Computer Vision** platforms, improving AI workflow visibility and increasing model analysis efficiency by 45%.
- Developed **modular UI libraries** and reusable design systems using **Storybook** and **Vitest**, boosting **code reusability** by **40%**, reducing bugs by **35%**, and ensuring **cross-browser compatibility** and consistent UX via **Figma**.
- Enabled **2× faster releases** and stable AI rollouts by optimizing deployment pipelines with product and backend teams.

Associate Software Engineer

Jun '22 — Mar '24

CEDCOSS Technologies

Lucknow, India

- Owned frontend development of **Shopify B2B integrations** with **React**, **Polaris**, and **TypeScript**, contributing to \$30k+ in monthly revenue via the **Google Feed app**.
- Revamped websites with **responsive design** and optimized frontend performance using **Web Vitals**, **lazy-loading**, and **throttling**, cutting API load by 30%, increasing user engagement by 25%, and improving SEO metrics by 20%.
- Streamlined state management with **Redux Toolkit** and improved workflows through **CI/CD**, **Git**, and **agile** practices, achieving a **30% reduction in code conflicts** and 40% decrease in deployment time.
- Ensured **code security** and protected credentials by adhering to industry best practices with **SonarQube** and **ESLint**.

EDUCATION

Master in Computer Applications, Kamla Nehru Institute of Technology (KNIT)

Jun '20 — Jun '22
Sultanpur, UP, India

SKILLS

Languages : JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

Libraries/Frameworks : React, Next.js, Redux Toolkit, Zustand, React Query, Tailwind CSS, Chart.js, Plotly, Storybook, Canvas, Formik, Yup, Vitest

Developer Tools & Workflow : Git, Github, Bitbucket, Vite, Webpack, Postman, Figma, Jenkins, Jira, CI/CD, REST APIs, WCAG (Web Accessibility), Cross-Browser Compatibility, Responsive Design, SEO Optimization

PROJECTS

Catalyst, RagaAI [Link](#)

Sep '24 — Present

- Built a robust **LLM playground UI** with versioned **prompt experiments**, real-time **diffing**, and **visual debugging**.
- Developed **metric dashboards**, feedback forms, and configurable datasets using **Formik**, **Yup**, and **dynamic layouts**, boosting model tuning efficiency by 35%.
- Engineered **interactive agentic trace views** to visualize multi-agent workflows, improving trace visibility by **50%**.

Prism, RagaAI [Link](#)

Apr '24 — Sep '24

- Built advanced **video analysis tools** with frame-by-frame comparison and **keypoint-based motion tracking**, enabling precise visualization of computer vision model outputs.
- Developed interactive **embedding visualizations** using **Canvas** for real-time diagnostics of **model behavior**, enabling early-stage **anomaly detection** and reducing triage time by **40%**.

Google Feed app, CedCommerce [Link](#)

Jan '23 — Mar '24

- Designed and developed a **large-inventory management interface** using **React** and **Ant Design**, ensuring smooth handling for **5k+ merchants** and reducing support queries by **30%** through improved frontend responsiveness.
- Built a dynamic **analytics dashboard** and secure **multi-step authentication flow**, enhancing user engagement and driving **10% revenue growth** in the first quarter post-launch.

EscapeNfly [Link](#)

Apr '25

- Built a mobile-optimized **single-page application** with **Next.js**, **Zustand**, and **Tailwind CSS**, featuring real-time itinerary planning, **light/dark mode**, and seamless navigation across devices.
- Integrated **REST APIs** via **Axios** to deliver dynamic travel data and personalized recommendations in real time.
